DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Engler (3115738), in view of Shields, II (6439444).

Engler discloses a hitch having a center cutter & two side cutters pivotally connected to the center cutter.

Although Engler only shows mower/cutter, however it would be well within the skill in the art at the time the invention was made to provide means for raking or brushing or cultivating, in order to increase the width of the area covered, so that the costs of operating the device is decreased.

Engler discloses the claimed device except for utilizing a ZRT vehicle, which is in recent years commonly used.

Shields discloses that it is known in the art to provide a ZRT vehicle as claimed in order to ensure maximum flexibility in the application of the ZRT vehicle. Although, there are plentiful ZRT vehicles known in the art, Examiner found that Shields provides additional feature of utilizing or applying the vehicle for any application (mowers, plows etc...).

Art Unit: 3671

Therefore, applying either the ZRT wheel-less carrying apparatus in combination with the teachings of a center device with pivotable side (wings) of Engler, or Engler's in combination with the ZRT wheel-less carrying apparatus would have been obvious to one having ordinary skill in the art at the time the invention was made, in order to cover greater areas, increase maneuverability of the vehicle.

Art Unit: 3671

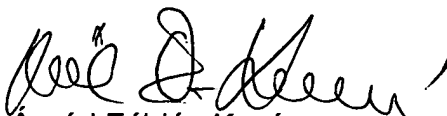

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Parsons, Jr, Arnold, Mathews et al., Schwertner, Caldwell.
